

PORCELAIN PAVING

PRE GROUT PROTECTION

SEAL & PROTECT

Water based pre-grout treatment.

Protects surfaces against staining from cement, grout, jointing material, and organic matter.

For use on all types of textured porcelain tile surfaces. Helps with grout and jointing compound release. A further coat can be applied after grouting, which helps with the future removal of stains from organic matter.

DIRECTIONS FOR USE

Preparation: Ensure surface to be treated is completely clean, dry, and free from dirt, grime, cement, and grout. If necessary, first wash surfaces with a dilute solution of ECOPROTEC Intensive Cleaner 1:5 and scrub with a white nylon pad. Rinse well to remove residues and leave to dry.

Application: Shake bottle before use. Before grouting apply evenly to the surface using a broad paint brush, foam roller or light pressure sprayer. Allow to dry for 30 minutes. Apply a second coat. Leave to cure for a minimum of 1 hour before grouting or pointing. Once pointing is dry and residues have been removed a further coat of protector can be applied covering the joints as well.

COVERAGE: M² PER COAT

	1 LTR	5 LTR
Lower porosity surfaces	30m ²	150m ²

AFTERCARE

Routinely sweep and wash surfaces. Clean and mop surfaces with ECOPROTEC General Cleaner.

STORAGE INFORMATION

Store in a cool, dry, frost-free environment. Store locked up. Shelf Life – Up to 2 years for un-opened containers.

OTHER

Hard to remove dried on cement stains can be removed using ECOPROTEC Cement, Grout & Salt Remover. Hard to remove stains from jointing compounds can be removed using ECOPROTEC Joint Residue Remover. Empty containers are recyclable. Active ingredients are water soluble and inert once cured. Do not use in temperatures under 5°C or over 25°C. Clean application tools and brushes with water after use.

HEALTH, SAFETY & ENVIRONMENTAL

Contains: 2-METHYLISOTHIAZOL-3(2H)-ONE

May cause an allergic skin reaction.

Keep out of reach of children.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN: Wash with plenty of water and soap.

If skin irritation or rash occurs: Get medical advice/attention.

WARNING

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area.
